

## **Watch an entire greenhouse tomato harvest in under two minutes**

October 29, 2018

With nearly 1,000 acres of tomatoes growing under glass in Ontario, it's clear there's an appetite for tasty tomatoes.

In partnership with the Ontario Greenhouse Vegetable Growers, Vineland Research and Innovation Centre is developing new Tomato on the Vine hybrids for market launch in 2021.

In this video, which was shot at Vineland's Collaborative Greenhouse Technology Centre, you can check out an entire greenhouse tomato harvest in under two minutes.
